

Tunisia New Energy Photovoltaic Solar Panel Crystalline Silicon

Which solar projects have been approved in Tunisia?

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltaia, Toyota Tsusho and Scatec. Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a combined capacity of 500 MW.

Is Tunisia ready for a large-scale solar project?

It previously completed a 500 MW solar tender in December 2019. In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025. Tunisia's total solar capacity reached 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

Is Tunisia building a solar power plant?

Tunisia has commenced construction on two 10 MW solar projects in Kasserine Governorate, developed by energy firms Qair and Mazarine. In September 2024, the country also began building a 50 MW solar plant in Tozeur, a TND 135 million project led by Norway's Scatec and Toyota subsidiary Aeolus.

When will Tunisia get a photovoltaic power plant?

The government will await proposals until April 30, 2025. The capacity will be awarded under the second round of the country's AO-01-2022 call for tenders, through which Tunisia aims to find contractors for 1,700 MW of photovoltaic (PV) projects under its national renewable energy development programme.

How is Tunisia advancing utility-scale solar?

Tunisia is advancing utility-scale solar through a series of tenders, including the latest procurement round launched in January 2023. It previously completed a 500 MW solar tender in December 2019. In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025.

How is Tunisia accelerating its energy transition?

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with growing energy dependency, Tunisia is taking a decisive step forward in its commitment to renewable energy.

Crystalline silicon photovoltaic (PV) cells are used in the largest quantity of all types of solar cells on the market, representing about 90% of the world total PV cell production in ...
