

Vanuatu Air-Cooled Energy Storage Project

Does Vanuatu have a low electricity access rate?

Vanuatu currently has one of the lowest electricity access rates in the world. Under the RESSET project, New Zealand will serve as the lead donor, providing the majority of funding for the installation of solar arrays and battery storage systems on Efate, near Port Vila, and the island of Tanna.

Does Vanuatu have a green energy fund?

With the National Green Energy Fund established and functioning, Vanuatu is well positioned to deliver renewable energy access and achieve energy savings across key economic sectors including water, agriculture, fisheries, and tourism.

Will Vanuatu's remote off-grid communities get better access to water?

Over 84,000 people across Vanuatu's remote off-grid communities will soon have better access to water, healthcare or education services, thanks to the country's first two REnew Pacific projects, announced today.

Vanuatu's energy storage journey offers a blueprint for island nations worldwide. From disaster recovery to economic development, stored sunlight is lighting the way forward - one Pacific ...
