

Which brand of Gabon original outdoor power cabinet is recommended

Are outdoor kitchen cabinets waterproof?

Wood is by far the easiest material to work with for DIY outdoor kitchen cabinets. Wood is moderately inexpensive. Wood outdoor kitchen cabinets have poor weather resistance. Since these aren't waterproof outdoor kitchen cabinets, you'll quickly find yourself dealing with cracking, warping, swelling, rotting, or fading (or all of the above).

What kind of cabinet should I use in an outdoor kitchen?

Speak with a Design Expert to bring your outdoor living dreams to life! What Kind of Cabinets to Use in an Outdoor Kitchen? Popular outdoor kitchen cabinet options include HDPE, powder-coated stainless steel, powder-coated aluminum, and polished stainless steel. The only material we'd outright advise against using is wood.

What are the different types of outdoor kitchen cabinet materials?

One of the relatively newer types of outdoor kitchen cabinet materials is PVC (polyvinyl chloride), which is a synthetic polymer material. PVC is one of the most widely used kinds of plastics. Although it was invented well over a century ago, only recently has it been used for outdoor kitchen cabinet manufacturing.

Does New Age sell outdoor kitchen cabinets?

New Age sells all kinds of prefabricated outdoor kitchen cabinets and more. You can purchase individual modules to complete your outdoor kitchen, or select from their pre-designed outdoor patio kitchen cabinet bundles. For the most part, these sets feature faux wood, aluminum, or stainless steel doors.

Are PVC cabinets good for outdoor kitchens?

Cheaper PVC or vinyl kitchen cabinets are susceptible to colour fading from prolonged UV exposure and can warp when temperatures fluctuate significantly. This is why if you do want PVC cabinetry for your outdoor kitchen, invest in a high-end brand like NatureKast (made in Canada).

Should you buy outdoor kitchen cabinets?

It wouldn't be practical to buy wood cabinets unless your outdoor cooking space was covered. You need to use a more weather-resistant type of wood, such as teak, mahogany, and white oak. These specialty woods can get expensive and require a lot more maintenance than other outdoor kitchen cabinet materials.
